MME. MALMBERG WILL LECTURE AT Y. W. C. A. FRIDAY

Madame Almo Malmberg, the Finnish patriot and lecturer, will speak on "The Women's Movement in Finland," under the auspices of the Honolulu College Club Friday evening at 8:15 o'clock at the Y. W. C. A.

"Finland and the Finns" interested an audience last Friday so much that a movement was started at once to secure another lecture before Madame Malmberg returns to the mainland. Her ready wit, which was in evidence particularly when she was answering questions from the audience, especially charmed her hearers.

"Finland was the first country in Europe to recognize the political rights of women," said Madame Malmberg in answer to a question. "In this she followed the lead of Australia and certain of your own states. Finland, however, was the first country in the world in which women immediately took advantage of the suffrage to elect a large number of their own sex to the national diet."

"We are very much amused now when we read the old arguments against woman suffrage; the same arguments being used wherever the fight is carried on. We have heard all about the neglected babies and the broken homes. But the babies are still thriving, for after all it takes only about a half hour once in three years to vote."

"One question that I am always asked is, Do the women vote like their husbands? Well that depends. Sometimes the women vote like their husbands and sometimes the men vote like their wives," she concluded. Madame Malmberg will tell of all these things in her lecture on Friday. Tickets may be secured from members of the club and from the Y. W. C. A.

SWEETHEART TOILET SOAP AT HENRY MAY'S

Sweetheart Toilet Soap, faintly perfumed, mild and soothing; a very dainty but thoroughly cleansing soap for the bath. Only 5c a cake, or 55c a dozen. Henry May & Co., Ltd., Fort street.—Adv.

RAILROAD MEN FAVOR IMPORTATION OF CHINESE

(Associated Press by U. S. Naval Wireless.) CHICAGO, Ill., May 23.—That there is a great shortage of labor already throughout the United States, which will be aggravated through the description of half a million young men for the new army, a shortage that may easily be met through the introduction of a temporary supply of Chinese labor, is the opinion expressed by a number of the leading railroad men of the United States, following a conference here yesterday.

FISH SKIN BINDING

BREMEN, Germany.—A bookbinder here is using codfish skin as a substitute for leather in bookbindings. The new material is said to give excellent results, and it has many advantages over sharkskin, which has frequently been used for deluxe bindings. The strength and durability of the new material have been tested and approved by the Imperial Testing Office. It is easy to work, literally unbreakable, and has the beautiful markings of a snake-skin.

The long pending Minnesota blue sky law, which has been before the legislature for six years off and on, has been passed.

WHY RHEUMATISM COMES WITH COLD WEATHER

(By Valentine Mott Pierce, M. D.) A close connection exists between three—cold weather and rheumatism. Prof. Alex. Haig of London has the most followers in the medical profession in the belief that the presence in the system of uric acid, or its salts in excess, is the real cause of rheumatism. Every one has recognized the difference in the appearance of their water as soon as it gets cold; there is often a copious sediment of "brick-dust."

Several causes may lead up to an accumulation of uric acid in the system, which, in turn, cause rheumatism or gout, or creaky joints, swollen fingers, or painful joints. For one reason the skin does not throw off the uric acid, by profuse sweating, as in the hot weather, and the kidneys are unable to take care of the double burden. Another reason is that people do not drink as much water in cold weather as in summer, which helps to flush the kidneys. Again, they eat more meat in cold weather, and some people are so susceptible that they soon develop rheumatism after eating meat.

At all such times persons should drink copiously of hot water, say, a pint morning and night, and take Anuric (double strength) three or four times a day. This Anuric comes in tablet form and can be had at almost any drug store. It dissolves the uric acid in the system and carries it outward. I would advise everyone to take Anuric occasionally, and continue for three or four weeks, and in that way avoid rheumatism, gout and many of the painful disorders due to uric acid in the system.

Make yourself healthy and strong by open-air exercise and diet. Then cleanse the liver by occasionally stimulating its action with a pleasant laxative composed of the May-apple, dried juice of aloe, and root of jalap, sugar-coated and long sold by all druggists as Dr. Pierce's Pleasant Pellets.—Adv.

ADDITIONAL TELEGRAPH NEWS

BRAZILIAN STEAMER VICTIM OF SUBMARINES

(Associated Press by U. S. Naval Wireless.) PARIS, France, May 23.—The Brazilian steamer Tijuca, bound from Havre for Rio Janeiro, was sunk by a German submarine Monday night, May 21, according to information received here last night. A part of the crew was saved. How many were lost is not yet known. The Tijuca was of 1549 tons register and was commanded by Capt. Reis.

JAPAN CITY DEVASTATED BY FIRE; FOURTEEN DIE

(Special Cable to Hawaii Shiping) TOKIO, Japan, May 23.—Yonezawa, a city of Northern Japan, was the scene of a disastrous fire yesterday, in which a large part of the city was destroyed and 14 persons burned to death.

The price of rice throughout Japan is rising, due to the reports of the unfavorable condition of the wheat fields and the certainty of a wheat shortage.

The admiralty reports that Japanese destroyers are now in the Mediterranean, engaged in guarding the traffic lines against submarines.

WILSON ASKED TO PUT STOP TO LYNCHINGS

BOSTON, Mass., May 23.—The National Civil Rights League last night sent a telegram to President Wilson protesting against the burning at the stake yesterday by a Tennessee mob of a negro accused of having killed a white girl.

The league said in its telegram that it was reported that the mob was intending to lynch two more negroes, and asked the President to take action immediately to put a stop to the crime.

TRANSPORT FACILITIES COUNTRY'S GREAT NEED

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., May 23.—Increase in transportation facilities is the greatest need which this country now faces, according to the opinion expressed here yesterday by high officials of the national government. Lack of transportation, in the view of the department of agriculture, is chiefly responsible for the high prices now prevailing for some necessary commodities.

The present high prices of fruits and vegetables, the department of agriculture declares, cannot be defended on the ground of a shortage of such products, for there is no shortage, except in the case of old potatoes and of strawberries.

Shipments last week of onions, tomatoes, celery and cabbage, the department announces, were at least equal to the shipments of the same products this time a year ago, while shipments of new potatoes and tomatoes were double those of a year ago and shipments of lettuce seven times as heavy.

Butter holdings, according to the statement issued by the department of agriculture, have increased by 62.5 per cent over those of a year ago.

PRESIDENT THINKS THERE IS NEED OF CENSORSHIP

WASHINGTON, D. C., May 23.—That there are some newspaper editors and proprietors who are not to be trusted to place the interests of the nation ahead of their own personal interests is the conclusion of the President, based on what has already taken place since the official requests of the war, navy and state departments to the suppression of certain news items were sent out. Because of the disloyalty of the few, therefore, the President is forced to the conclusion that a legalized press censorship is necessary in the national interest.

These facts are stated by the President in a letter written yesterday to Representative Webb, the communication being drawn from the President by the decision of the house Republicans in caucus yesterday to oppose any form of press censorship being included in the espionage bill. The President writes that it is imperative that the administration be given the power to deal with those few newspapers "which cannot be relied upon to observe a patriotic reticence about anything the publication of which could be of injury to the cause of the nation."

GEORGIANS SUBSCRIBE TO CARE FOR FIRE VICTIMS

(Associated Press by U. S. Naval Wireless.) ATLANTA, Ga., May 23.—With the ruins of 1563 buildings still smoldering and glowing from the heat of the great fire that on Monday swept through the finest residence part of the city, Atlanta has already made preparations to begin the work of rebuilding. It is figured that rebuilding will be started within a week.

Yesterday a relief fund of \$50,000 was subscribed to take care of the great numbers of poor who were rendered homeless by the conflagration.

NEGRO PROVES INNOCENCE, LIBERATED BY LYNCHERS

(Associated Press by U. S. Naval Wireless.) MEMPHIS, Tenn., May 23.—One of the negroes implicated by Eli Persons in his confession of murder, made just before he was burned at the stake by the lynchers until his alleged accomplice could also be located, was released last night, having been able to produce evidence of his innocence. The chase after the second negro has been abandoned, his innocence also having been established.

The fact of the burning at the stake so close to this city has aroused a feeling of resentment against the lynchers, who are believed to have besmirched the good name of the state by their lawlessness. A grand jury investigation of the circumstances surrounding the lynching and of the actions of those leading the mob has been ordered by the attorney general.

LIBERTY BONDS OF SMALL DENOMINATION, IS PLAN

(Associated Press by U. S. Naval Wireless.) NEW YORK, N. Y., May 23.—Every body is to be given an opportunity to participate in the "Liberty Loan" by which the national government is attempting to raise seven billion dollars to finance the nation for its war with Germany. The bond committee of the federal reserve bank, according to an announcement here yesterday, is perfecting plans for the issuance of certificates of the denomination of \$10. This, it is believed, will enable everybody to purchase them. It is in line with the plan adopted by the British government which has resulted in making practically the entire population of Great Britain contributors to the war funds of the empire.

The plans now being worked out call for the issuance of participation certificates of the denomination of \$10. This, it is believed, will enable everybody to purchase them. It is in line with the plan adopted by the British government which has resulted in making practically the entire population of Great Britain contributors to the war funds of the empire.

"Did you really call this gentleman an old fool last night?" said the judge severely.

The prisoner tried hard to collect his thoughts.

"The more I look at him the more likely it seems that I did," he replied.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered untold agony for years desiring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a well known Specialist who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to carry food into the tissues and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and ill run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skiny and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fading vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron from three times per day after meals for two weeks. Then

test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthening and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like lactate of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated iron for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated iron does not at least double your strength in ten days' time. It is dispensed in this city by Hollister Drug Co., Benson, Smith & Co., Chambers Drug Co. and all other druggists.

BETTER MEANS TO FATTEN CATTLE MUST BE FOUND

(By Associated Press)

SACRAMENTO, Cal.—Revolutionary changes in the method of preparing cattle for market must commence in the near future in California, according to Professor Gordon H. True of the state university farm at Davis. Cattle must be fattened on cultivated crops in the valleys, for ranchers are stocked to the limit now and Californians must come to more intelligent and careful raising of beef stock, says Professor True, who recently returned from a tour of the principal cattle countries of the state, getting data for the state council of defense. It was Professor True who took two steers from the University farm back to Chicago last fall and won the grand championship and the reserved grand championship at the Chicago International livestock show.

"California has gone through a hard winter," the professor recently told a meeting of Pacific coast Hereford breeders. "Rangers and ranches are stocked up to the limit and in many places beyond the limit. Western ranches generally have about reached their maximum number of cattle and yet we are told we must produce more beef for the exigencies occasioned by the war. How then, is this to be accomplished? There is only one answer. We have got to take steers off the range and replace them with breeding cows. We must not keep two or three year olds on the range but the people in the valleys must raise feed to fatten them. That means a better grade of steers and the coming of a time when our farmers will engage in steer feeding."

"When this system of breeding and raising beef, new to the coast, becomes a reality, then the farmers will look out more and more for the better grades of steers, for they want the animal which matures quickly a fine quality of beef and not the irregular scrubs such as those which come over the border from Mexico."

Resolutions were adopted by the Hereford breeders and telegraphed to Secretary of the Interior Lane, asking him to throw open to range cattle the national park reserves in California, such as the Yosemite, Sequoia and Mt. Lassen national parks, in which it is claimed there is a large amount of feed going to waste. Representatives from California, Nevada, New Mexico and Oregon made up the Hereford breeders taking this action.

The number of hairs is greater in the blond haired than among the black haired or brown haired, for examples, 147 black hairs, 162 brown hairs and 182 blond hairs a square inch.

Has a very Creamy Lather as a result of scientific Soap-making. Does not waste.

IMPERIAL PEROXIDE SOAP

A PURE WHITE TOILET AND BATH SOAP

Each cake is wrapped to insure delivery to you in a sanitary condition and to retain its original delicate perfume.

Made in the cleanest most sanitary factory in the world.

Imperial Peroxide soap, made for Nursery, Toilet and general purposes.

Has a most pleasing effect on delicate skin, besides making it healthy and clean.
